

Easy Organizer Suite™

How To Temporarily Turn Off AVG Anti-Virus Software

To download the installation, update or upgrade files for Easy Organizer Suite, the AVG anti-virus software must be turned off temporarily. To do that, please follow these instructions:

1. Right-click on the AVG icon in the system tray next to the clock.
2. Click Temporarily disable AVG protection.
3. Choose how long you want the protection to be disabled and be sure to disable the Firewall as well, and then click OK.
4. You can now download the installation, update or upgrade files for Easy Organizer Suite. The Anti-Virus software and the Firewall will automatically turn back on in the designated time.
